	Examiner CATHERINE N. WITCZAK	Art Unit 3767	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 11-14, 16, 17, 25, 26, 29-31, 33, 34, and 36-38 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cruise et al (US 6,994,686) as modified by Pawelka et al (US 5,584,815).

Cruise et al disclose in Figures 8A-D, 10, and 18 a method for delivering sealing compound comprising the steps of introducing a delivery sheath (24) having an occlusion member into a puncture; the delivery sheath connected to a pair of barrels (22) by a Y-fitting (Figure 28), wherein the sealing components are provided in the barrels by moving a valve coupled to the barrel ports for connecting the barrels with containers so as to mix buffer solutions in the barrels with solid polymer precursor components (Figure 8).

Cruise et al disclose the claimed invention except for an auto-injection assembly having an actuator activate able to release a spring mechanism. Pawelka et al disclose in Figure 3 an auto-injection assembly comprising an actuator activatable to release a spring mechanism to automatically direct a plunger assembly to inject components out of the barrels. It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the device of Cruise et al with an autoinjection system as taught by Pawelka, since such a modification would automate the system of Cruise et al, making it easier to use.

Allowable Subject Matter

2. Claims 18, 32 and 35 are allowed.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
